QQI Level 9 Certificate in Technology Enabled Teaching & Learning

This innovative part-time programme is validated by QQI.

Introduction

Our Level 9 QQI Certificate in Technology Enabled Teaching & Learning is now accepting applications for the January 2025 intake. The aim of this programme is to equip you with an up to date, cutting edge training in the application of technology enabled teaching and learning in a higher education setting. It strives to provide learners with teaching and learning specific knowledge, skills, and competencies so that they can best support students within their own discipline teaching using innovative digital and blended approaches to teaching.

Who Should Apply

This programme is ideal for those who are currently working in Higher Education settings or who wish to work in Higher Education settings.

Entry Requirements

- A recognised undergraduate degree, issued at Level 8 on the National Framework of Qualifications (NFQ).
- Those with a level 7 Degree, with substantial professional experience may be considered under our recognition of prior learning and experience policy.
- If English is your second language you are required to submit an IELTS (International English Language Testing System) cert at Level 6, or equivalent.

Minimum Technological Requirements

You will need to have:

- Access to a stable internet connection with a minimum download speed of 1.5Mbps.
- A desktop computer or laptop that can use zoom.
- A webcam and microphone
- A web browser
- Microsoft Word

Overview

The programme is delivered through blended learning whereby students attend evening sessions online along with one onsite day in our Tallaght Campus.

The online components involve students and their lecturer logging into our online platform Moodle and use the online portal Zoom™ simultaneously.

Zoom™ provides an integrative online environment for students and Lecturers to interact and engage in the learning. This platform facilitates discussion polls, sharing of slides, videos resources and much, much more. To foster more intimate learning environments the use of breakout rooms is also implemented, allowing for the safe and experiential triadic learning practice that we have found so successful.

All our online sessions are accessible through computer and mobile devices, and we have a structured and robust technology department to support all faculty and students through their online learning journey. To encourage flexibility, and the best practice, we also record online sessions, these are made accessible only to the students in that class to review content whenever is convenient to them!

Assessment

Learners are assessed through a continuous assessment strategy, which includes a variety of mediums such as individual projects and written assessments. Each module has its own assessment strategy relevant to the content of that module.

Award: The Certificate in Technology Enabled Teaching and Learning is validated by QQI at Level 9 on the NFQ.

Starting: January 22nd 2025.

Duration: Four Month programme delivered on a part time basis.

Application Fee: €100 (non-refundable)

Annual Fees: €700.
