Kaizen Heath and Social Care is a new and exciting children's service. Kaizen's philosophy of care is based on the ancient Japanese belief system that young people and their wider family systems can achieve slow, gradual and everyday improvements in their lives. This overarching belief allows us to promote systemic and trauma informed theories of practice in our everyday work. Our core values at Kaizen are all driven by keeping the young people at the centre of everything we do and ensuring that their voice is privileged within all decisions about their lives and how we design and deliver our services.
