

Call for Volunteer Research Participants: 18+, Individuals with AND without Dyslexia (UCD & NUIG)
(<https://www.activelink.ie/node/108896>)

We are currently recruiting participants for our Master's in Behavioural Neuroscience research project! We are investigating word and face processing in typical vs dyslexic readers and hope to contribute to dyslexia research by doing this.

You would be required to fill in a survey and then come into the UCD lab to do some eye tracking tasks. This would all take less than an hour. (Please note this study is also being conducted in Galway by the University of Galway (NUIG)).

We are looking for both typical and dyslexic readers and your participation would be greatly appreciated.

**If you are interested/ have any questions, please reach out to the email provided-
