

Community Impact Network: Training Courses (<https://www.activelink.ie/node/109410>)

The Community Impact Network (CIN) is a national network focused on building the collective leadership and capacity of organisations to meet the needs of older people in Ireland. **CIN** does this through provision of Networking, Training, Technology, Resources and Best Practice to support the membership base.

Partnerships are developed between statutory, community and voluntary services which will enhance services for older people. We also work with affiliated organisations – private corporations, schools, public bodies, local government, and other services that provide support to older people living at home and in the community.

We train, we connect, we network across diverse organisations, and we bring these into one national network base for services that support older people to create a greater impact.

Our CIN trainings programmes available to members include **CIN Support & Befriending**, **CIN Member Training & Development**, **ALONE CIN Positive Living** and **Hi Digital**. Take part in CIN training to empower yourself, build confidence, access professional and peer support, gain certification and empower older people.

Please see our training offerings below for our members for **July**, still time to book a place:
