### **Our programme vision aims to:**

1. Address violence against children and young people, WITH children and young people, in 9 European countries across, by funding interventions that can improve children's lives;
2. Develop capacities of local CSOs working at a local level in 9 countries in the area of violence against children and young people, and create a cross-country learning network for these organisations for peer exchange and mutual learning;
3. Inform wider regional work at the European level (EU, Council of Europe etc.) in the area of addressing violence against children across its many forms - both direct and/or indirect, and day-to-day and/or systemic, drawing on lived experiences and practice examples supported by the programme.

We are looking to fund projects that engage children meaningfully as part of their implementation.
