ABOUT PACE SOCIAL ENTERPRISE

PACE Social Enterprise is part of the PACE Organisation, a voluntary sector organisation with a 55-year history of providing services (including prevention programmes and accommodation) for people with criminal convictions. Our programmes are particularly beneficial to supporting people who have served lengthy custodial sentences, in their transition from prison to community-based living and their safe reintegration into society.

Established in 2014, the **social enterprise** provides training and work experience opportunities—in a real commercial environment—for people who have experienced the Irish prison and/or probation system. Their work experience, in particular, provides participants with industry-ready skills and the opportunity to earn a reference that will help them into mainstream employment and onto a new career trajectory.

We manufacture planters and outdoor furniture in metal and wood at our workshop in Santry. The social enterprise also includes a horticulture site nearby where we propagate and grow plants for our planters.

We are currently developing a furniture upcycling facility that will serve as a model for informing and shaping a more sustainable future for all our businesses and for the organisation as whole.

We also operate a coffee business called the Mug Shot which provides retail and hospitality training and experience.

- CPD Continued Professional Development
