

Terraglen Residential Care Service **(<https://www.activelink.ie/node/112480>)**

TerraGlen Residential Care Services was established in April 2011. Since then, we continue to grow and have expanded our service to areas where there is a need for respite & residential care, both in Residential Care and Disabilities services. We provide secure homely accommodation with fully qualified and dedicated staff and tailor made care packages for the young people who are referred to us.

We provide everybody in our care with equal opportunity to achieve their dreams and ambitions.

All our centres are registered with Tusla or HIQA depending on the service of that particular centre, and are subject to regular inspection.

People in our care present with a range of complex needs that we strive to meet by providing a secure and stable living environment, a pro-social model of care, and support and nurturing to enable each person to reach their fullest potential.

We work in partnership with all key stakeholders in each person's life; family, social workers, teachers and therapists. We respect each person's right to be listened to and to be actively involved in decisions that affect their lives and futures.

TerraGlen strives to provide the best-quality care that:

- Protects everybody from harm.
- Promotes environmental and emotional safety in a caring environment.
- Meets the individual needs of each person.
- Encourages learning and development.
- Reflects each individual's own views.
- Respects each individual's right to make decisions about their future.
- Provides opportunity for people to learn to live as independently as possible.
- Prepares people for leaving care, where applicable.

Every person we care for is:

- Warmly welcomed into TerraGlen.
- Assured a safe and homely environment.
- Valued and cared for by qualified and trained staff.
- Respected as an individual with the potential to achieve their ambitions.
- Encouraged to avail of education and training.
- Afforded the opportunity to build safe and positive relationships.
