Amnesty International is an independent worldwide movement working impartially for the release of all prisoners of conscience, fair and prompt trials for political prisoners, an end to torture, executions, disappearances, and extrajudicial executions.

Amnesty International's vision is of a world in which every person enjoys all of the human rights enshrined in the Universal Declaration of Human Rights and other international human rights standards.

Amnesty International undertakes research and action focused on preventing and ending grave abuses of the rights to physical and mental integrity, freedom of conscience and expression, and freedom from discrimination, within the context of its work to promote all human rights.
