

Sustainable Ireland (<https://www.activelink.ie/node/469>)

Sustainable Ireland is an education based workers' cooperative committed to raising awareness about sustainability and offering ideas and solutions to issues related to sustainable living.

Our activities are informed and directed by our core programme areas: Rethinking the City, Green Building, Open Source, Whole Systems, Eco-Economy, Permaculture, Youth Forum, Global-Local, Ecotourism, Bioregionalism, Energy, Waste, Sustainable Culture, Traditional Wisdom, New Cosmology.

We produce events, publish books and magazines, run a shop, provide training, courses and manage projects related to these areas.
