

VMM International (<https://www.activelink.ie/node/705>)

VMM International is a values-based international development organisation. We recruit, train and support professionally qualified personnel to work in areas of great need in developing regions of Africa and Asia.

VMM aims to build the capacity of its grassroots partners in overseas countries by supporting projects that advance education, health and community initiatives that service the relief of poverty. These objectives are achieved through the building of partnerships with church, civic and community organisations and the identification of immediate and long-term community capacity building needs. Where the human resource requirements cannot be met locally, VMM meets these needs by recruiting skilled professionals from the UK and Ireland to fill these positions as volunteers. We work with people and communities regardless of religion, politics or social status.
