

the Other clinic (<https://www.activelink.ie/node/83843>)

We are a patient-first professional counselling & psychotherapy clinic. Psychoanalytically trained. Dublin based.

As Lacanian psychoanalysts our priority in treating patients is to appreciate what makes them unique. By focusing on the otherness of their symptoms we aim to move beyond the root cause of psychological suffering. We don't believe in quick fix therapy and instead we work towards lasting change.

To find an other way.
