Louth Local Development is a Local Development Company funded by the Irish Government and charged with the delivery of a range of programmes whose aim is to support specific target groups with a view to making a positive difference in their lives.

The company was set up in January 2009 as part of the process of restructuring of the local development sector nationally. The process, referred to as cohesion, was aimed at merging the activities of Area Partnership and LEADER companies under one Local Development Company at county level.

Main programme -Two of the main programmes which are delivered by Louth Local Developmentp are the Social Inclusion Community & Activation Programme 2018-2022 and the Rural Development Programme (LEADER). They both have an important role in developing innovative responses to local problems, and in building local capabilities to address local needs and develop local resources and services.

The main objective of the new Integrated Development Companies as outlined by the Department of Environment, Heritage and Local Government is: to promote, support, assist and engage in
