

Together-Razem (<https://www.activelink.ie/node/94879>)

Together-Razem is a migrant led organization which provides support services to the Polish and Eastern European migrants in Ireland. We are a registered charity that was established in Cork in 2006. In 2018 we have expanded our remit to a national level.

Our mission is to promote integration and equality, reduce marginalization, and to improve the quality of life of the Eastern European migrants.

We focus on five key areas:

1. **Information provision and case work** – one-to-one and group information services, online webinars, and individual consultation on welfare, employment, social and legal aspects;
2. **Mental Health support**– free or low cost psychotherapy and addiction counseling in native languages: Polish, Romanian, Ukrainian, Russian
3. **Language education** –free or low cost English language courses for adults, and Polish language classes for primary school age children: Razem Academy
4. **Fostering integration** – we organise regular intercultural events to facilitate social interaction, and we promote Polish and Eastern European culture amongst the wider society;
5. **Advocacy and campaigning** - we foster partnerships with key stakeholders to advocate for better protection of migrant rights, and we campaign on issues related to integration and anti-racism. We represent the voices of Polish and Eastern European migrants on local, regional and national level.
